

Reliance acsn

ISMS Policy Statement

Scope of the ISMS

- Information assets, processes and procedures required by Reliance acsn to deliver Managed and Professional Security Services;
- Sales of hardware and software;
- Hardware and software support and maintenance

ISMS Policy Statement

Information Security is considered a top priority for Reliance acsn leadership who recognise that in order to satisfy the needs and expectations of its interested parties both within the organisation and from external parties including customers, suppliers, regulatory and Governmental departments, it is essential that all information assets are protected appropriately by ensuring the maintenance of confidentiality, integrity and availability.

It is the policy of Reliance acsn to pursue the following objectives;

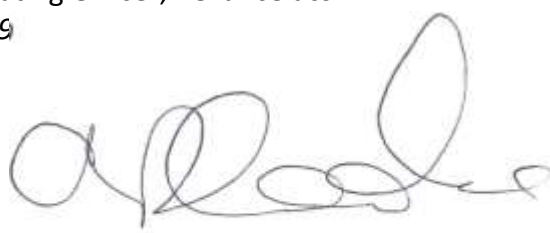

- Maintain and improve an Information Security Management System that is compliant to ISO27001
- Compliance to all applicable laws and regulations and contractual obligations
- Provision and measurement of Information Security education to all staff
- Implementation of Information Security Objectives that are established following the results of risk assessments

This policy sets a framework for continuous improvement which is reviewed annually by Reliance acsn top leadership to ensure it remains appropriate and suitable to the business.

Responsibility for upholding this policy is company-wide under the authority of the Chief Executive Officer with the expectation of personal commitment of all staff to address information security as part of their skills.

The policy is reviewed annually or sooner should a significant change occur in order to ensure its continuing suitability, adequacy and effectiveness.

Andrew Cooke
Chief Operating Officer, Reliance acsn
